

Faculty Orientation Programme: Mapping of COs with POs on 30.11.2018

Now a days 'Outcome Based Education' is the buzz word among the higher learning institutions. NBA, NAAC and other regulatory agencies are appraising the HEIs based on adoption of outcome based education and attainment.

Prf. M.V. Rao, former Professor of Education of Andhra University, Visakhapatnam gave a talk to create familiarity with Outcome based education and mapping of course outcomes with Programme outcomes to the staff members.

In his talk, the resource person has emphasized that the earlier accreditations were based on input and output model, i.e., the results of the institution. Now the accreditation boards have changed the strategy to input and outcome model, which aims at quality of the graduates passed out. He elaborately explained how the OBE helps the institution in understanding the setbacks associated with curriculum and there by facilitates in improving the curriculum and indirectly the quality of education provided by the institution.
